```
pipeline {
agent any
stages {
  stage('Initialize') {
     steps {
        echo 'Hello World'
   }
   stage('Image build') {
     steps {
        echo 'Image build successfully'
     }
  stage('Container Build') {
     steps {
        echo 'Container Build successfully'
   stage('App Run') {
     steps {
        echo 'App is running successfully'
```
